Footnotes to FCC Rate Regulation Impact Survey

Community Unit ID# KS0064

Line 27 - No subscriber received an increase in rates without additional programming.

While a customer with all regulated programming services and an addressable decoder with no additional outlets received an increase of \$0.09 in their monthly bills, if that customer had one additional outlet they would receive a decrease of \$1.91 and that customer with an additional outlet and an additional addressable converter had a decrease of \$3.25.

Line 27 percentages are approximate.

September Installation and Service Change volume is estimated based on August activity.

No split is available for wired versus unwired installations or trip versus no trip service changes.

Total billed monthly charges for regulated services are estimated based upon estimated volumes.
